Other Worlds of Labour in the Twentieth Century

Series: Palgrave Studies in the History of Social Movements

- ▶ **Poses a major challenge to mainstream Labour History that focuses on strikes, nationalization, trade unions, communism, secular state-socialism**
- ▶ **Introduces readers to a multi-layered examination of different aspects of the history of 20th British labour movements**
- ▶ **Challenges the pre-conceptions and stereotypes surrounding the labour movement**

"At a time when 'the labour movement' has ceased to be a force in the land and socialism is no longer synonymous with the state, this collection brings some fresh thinking to bear on the meaning of 'labour' and 'Labour' in a post-industrial Britain."

- **Robert Colls, Professor of Cultural History, De Montfort University, UK**

"A powerful and important book which expertly rediscovers the non-state tradition within the British left. This rich and provocative collection offers new perspectives on the past and lessons for the present."

- **Tristram Hunt, Historian and Labour MP, UK**

"A refreshing challenge to the conventional story of British labour history, with a message for the future."

- **Pat Thane, Research Professor in Contemporary British History, King's College London, UK**

This book poses a major revisionist challenge to 20th century British labour history, looking beyond the usual Marxist and Fabian approaches. These have excluded central aspects of working class experience, notably religion and self-help, in order to exaggerate 'labour movement' class cohesion. Instead of a 'forward march' to secular state-socialism, this collection of essays finds a rich diversity of social movements and ideas. The editors establish the liberal-pluralist tradition, with the following chapters forming three distinct sections. Part One, 'Other Forms of Association' covers trade unions, the Co-operative Party, women's community activism and Protestant Nonconformity. Part Two, 'Other Leaders', explores employer Edward Cadbury, Trades Union Congress leader, Walter Citrine, and the electricians' leader, Frank Chapple. Part Three, 'Other Intellectuals', considers G.D.H. Cole, Michael Young and left libertarianism. Readers interested in the history of the British labour movement will find this an invaluable resource.
